## PROFILE

Senior Frontend Engineer with 10+ years of experience building high-performance, user-focused web and mobile applications. Skilled in React, Next.js, and TypeScript, with a strong foundation in UI/UX, responsive design, and performance optimization. Experienced in collaborating with cross-functional teams to deliver polished, scalable products for global brands.

## EXPERIENCE

### Livenation | Senior Software Engineer

November 2023 – Present

Build and maintain reusable, performant UI components and pages for high-traffic entertainment platforms using Next.js, React, TypeScript, Emotion, Vitest, and Playwright. Conduct code reviews, write unit and end-to-end tests, and address technical debt to maintain code quality and performance. We work in an agile sprint environment, contributing to continuous integration and deployment best practices.

### Dojo | Senior Software Engineer

February 2020 - May 2023

Contributed to the launch and expansion of the Dojo platform (June 2020), a web and mobile solution for SMEs. Developed new product features and flows for onboarding, payments, and account management using React, React Native, TypeScript, Apollo GraphQL, and Styled Components.

### Allsaints | Front-End Developer

April 2018 - March 2019

Key contributor to the Allsaints site redesign (2018), delivering landing pages, campaign modules, and editorial layouts.

### The White Company | Digital Designer/Developer

April 2016 - April 2018

Designed and developed inspiration and campaign pages for seasonal launches using Ampliance CMS. Produced and optimized digital assets for weekly email and affiliate marketing campaigns, maintaining brand alignment across channels.

### Ted Baker | Front-End Developer

November 2014 - March 2016

Led the frontend development of Ted Baker's first fully responsive website redesign. Ensured design integrity and responsive functionality across devices.
